

FRONT END DEVELOPERS (BLOCK 5)

PROGRESS REPORT

BSIT 2ND YEAR – BLOCK 5

Date: May 19, 2022 (Thursday)

Leader: Dominguez, Clarissa V.

Group: Front End Developers (Block 5)

Note taker: Gapit, Sophia Angela V.

Block President: Lauriaga, Joey E.

Members:

Dandan, Aliyah Jane P.

Gapit, Sophia Angela V.

Pagaling, Jealmari Angel R.

Domingo, Sophia Kaye G.

Go, Shekaina V.

Sebastian, Princess Rei D.

Dominguez, Clarissa V.

Mendoza, Richelle O.

THEME:

- The block leaders and representatives brainstormed and discussed the final theme to be used for the front-end design of the website.
- Finalized theme (discussed by the block leaders and representatives) to be used which includes the font style, graphics, theme color, and style of icons to be put onto the website.

TYPEFACE:

Heading: Lato Heavy

Body Text: Source Sans, Arial

COLORS:

Background color: F3F6FF

Logo: Yellow Logo

Buttons: #06529B

Hover effects: #0892DD

COLOR SCHEME:

APPLICANT PAGE INTERFACE:

PROBLEMS WITH THE PREVIOUS APPLICANT PAGE INTERFACE:

- Improve graphics.
 - The page is overly designed with cartoon graphics that it overshadows the main system interface.
- Utilize the space.
 - There is so much dead space present in every page.
- The space is too wide while the font in the page is too small.
- Put the graphics at the center of each page.
- Remove the cartoon from the application page form because it is too distracting.
 - Change it to PLM icons that represents the university to make it more like an official university website.
- Inconsistency of the buttons and fonts.
 - This makes the system looks unprofessional

CHANGES MADE IN THE APPLICANT PAGE INTERFACE:

- Based on what was discussed and finalized theme by the block leaders and representatives, Block 5 Front-end Developers made initial layouts for the template in the applicant page interface.
- All problems being considered for further revisions results with the template layouts below for the applicant page interface.
